## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-7 and 15-25, drawn to data generating method.

Group II claim(s) 8-14 and 26, drawn to data generating device.

Group III, claim(s) 27, drawn to computer generating program.

The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: That each inventions do have it own mode of operations, functions and/or effects, for example: invention I is a method that requires the step of preparing component information which does not require by invention II and invention III have a separate functions such as an information database for storing component information that does not require by invention I or III, further invention III has utility by itself such as by generating component mounting data by a computer that does not require by invention I and/or II, etc. For reasons provided above these inventions are held to be lack of the same or corresponding special technical features.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143). Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be
